## Supporting Statement

At RMET teachers' pay follows the nationally agreed guidelines, whilst support staff follow the National Joint Council (NJC) for local government services.

RMET employs more female (79%) full pay relevant employees than male (21%). This is representative of the types of jobs within the Trust and is reflected in the lower quartile sectors where there are lower paid and part-time roles, which primarily women are employed.

The Trust is confident that the reported Gender Pay Gap does not result from paying men and women differently for the same or equivalent work and is committed to providing a fair working environment.
